📍 Gurgaon

OBJECTIVE

Motivated final year computer science student seeking an opportunity to leverage my technical skills, problem-solving abilities, and passion for process development and product management. I aim to contribute to the efficiency and success of an organization while further enhancing my knowledge in real-world product management.

EXPERIENCE

Project management and Leadership

College

📅 2022 📍 Chandigarh

Successfully orchestrated and led a series of project activities, leveraging expert knowledge to drive fruitful outcomes.

- Demonstrated proficiency in technical and analytical domains, contributing to project success through strategic decision-making. Directed project teams and executed.
- Leveraged an adept understanding of technical concepts to optimize project processes and align outcomes with goals. Orchestrated key project stages, implementing data-driven strategies that positively impacted overall project performance.

Technical Expertise and Contribution

College

📅 2023 📍 Chandigarh

Exhibited exceptional technical prowess, yielding substantial improvements across various project activities.

- Acted as a profound source of insight, employing deep domain knowledge to enhance project deliverables.

PROJECTS

Internal marks assessment system

📅 2021 📍 Chandigarh

Collaborated with a team to design and developed a web-based Internal marks management system using agile methodologies.

-Collaborated with a cross-functional team to define requirements, design the system, and manage the project using project management tools, and develop an automated internal marks assessment system.

Created detailed process flow diagrams to map out the assessment process stages.

Designed user-friendly interfaces for faculty to input and evaluate student marks.

Integrated data validation checks to ensure accuracy and consistency of entered marks.

Led testing efforts, identifying and resolving issues to ensure system reliability.

- Conducted user acceptance testing, incorporating feedback to enhance usability. Delivered training sessions to faculty, facilitating smooth adoption of the system.
